

MIXED LOW LEVEL WASTE RCRA PART B PERMIT

Perma-Fix Northwest Mixed Low Level Waste (MLLW) Facility has several thermal and non-thermal unit operations permitted for the treatment of RCRA and TSCA mixed wastes. This facility operates under a RCRA Permit with TSCA approval issued by the Washington State Department of ecology and the U.S. EPA Region 10 (Permit ID No. WAR000010355). This permit authorizes the receipt, possession, and treatment of specific types of hazardous materials.

A copy of this permit is available on CD. Please contact **Kevin McCallum** at **(509) 375-7001** to request a copy.
